Siapi presents the lighter solution for your production.

What if you could replace your current 5 Gallon Polycarbonate container with an equivalent 650 gr PET refillable container, at a speed of 240 bph, now?
 Shrinkage at 70°C < 1,5% (after 5 hours of exposure) *

* by use of PSB Patent Pending Nr. RM2013A000218

Two stage stretch blow molding machines.

Siapi is the only family owned independent producer of two stages stretch blow molding machines that implements the concept of *continuous stretching* thus allowing the production of resistant and bright large container.
