

- Aspiration system for each dosing station
- Sistema de aspiracion para cada singula estacion de dosificado
- Dispositivo di aspirazione per ciascuna stazione di dosaggio

- **Patented** flow cutting system
- Compuerta de corte flujo **patentada**
- Sistema **brevettato** di chiusura del flusso

- Automatic liftable Head for a easy inspection and clenability
- Cabezal elevable para una facil limpieza y inspeccionable
- Sollevamento della testata di alimentazione per una facile pulizia e ispezioneabilità

POWDERS

NET WEIGHT FILLER FOR POWDER AND GRANULATE
NET WEIGHT ENVASADORA PARA POLVOS Y GRANULADOS
NET WEIGHT RIEMPTREICE PER POLVERI E PRODOTTI GRANULARI

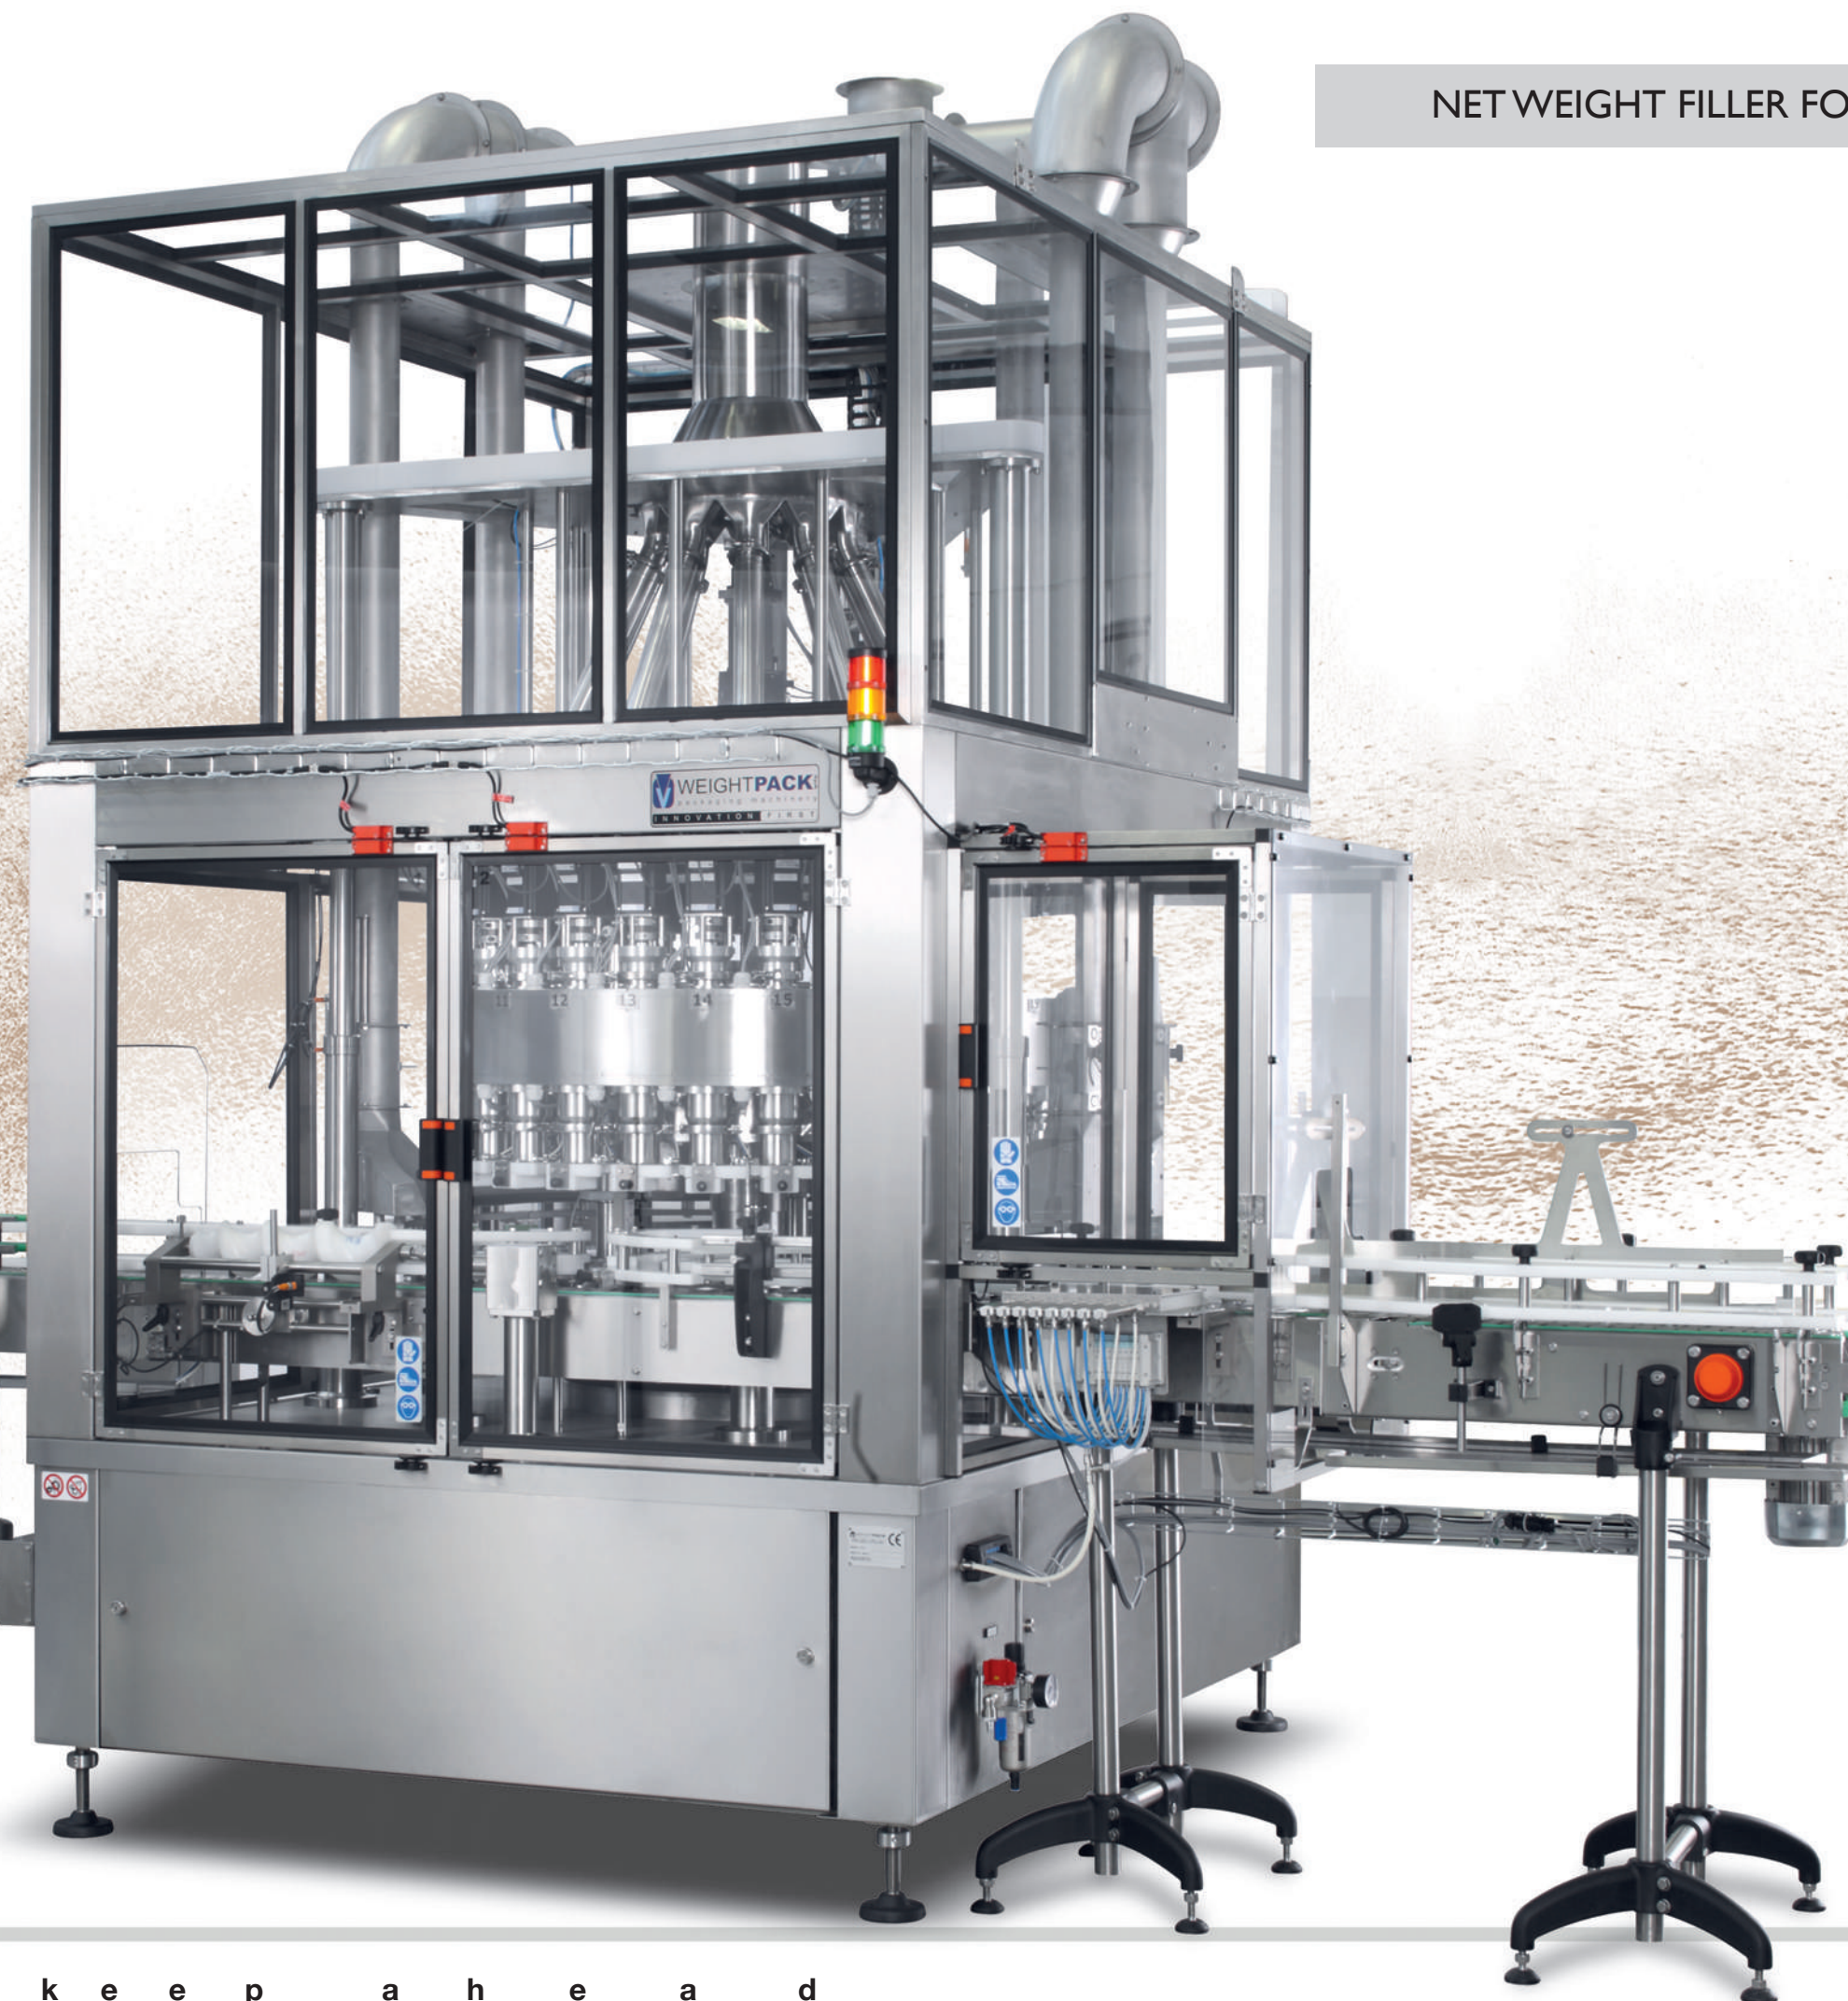

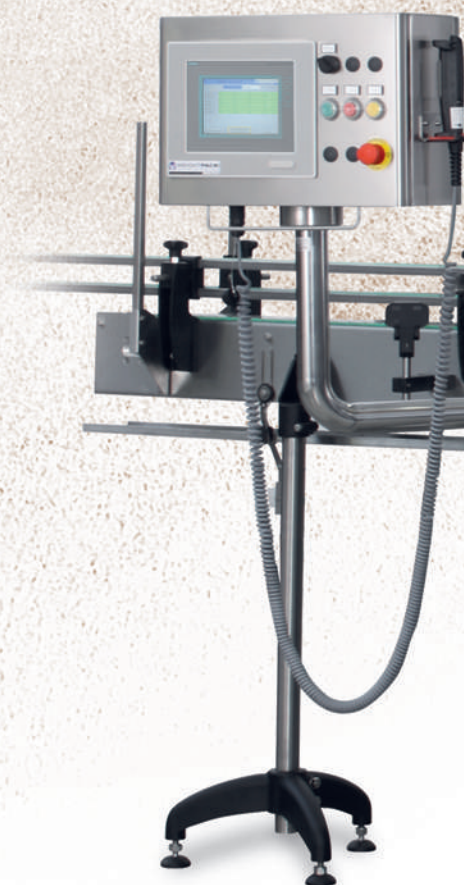

- Central manifold lifting system for effective and simple cleaning
- Sistema de elevación del colector central para una limpieza eficaz y sencilla
- Sollevamento della testata di alimentazione per una facile pulizia e ispezionabilità

- Central aspiration system
- Sistema centralizado aspiracion humos
- Sistema centralizzato di aspirazione polveri

- Patented product distributor system
- Sistema patentado del colectamento producto
- Distributore brevettato del prodotto

NET WEIGHT FILLER FOR **POWDER** AND **GRANULATE**

- **VIBRATING PLATE**
The electronic vibration allows to changing vibration frequency and amplitude without affecting dosing accuracy.
- **BASE VIBRATORIA**
La vibración electrónica permite cambiar en frecuencia y amplitud la vibración sin afectara la exactitud del dosificado.
- **PIATTELLO VIBRANTE**
La vibrazione elettronica permette di cambiare in frequenza ed ampiezza la vibrazione senza intaccare la precisione di dosaggio
